[REDACTED]
[REDACTED]

Dear [REDACTED]

I am writing to you in response to your request dated 4 September 2018 made pursuant to the Official Information Act 1982, which asked:

- *I would like to know how many shootings police have dealt with over the past 10 years (from January 1, 2008). I want to know the rate of shootings (based on crime rate per 100,000 people).*
- *I would like to know the number of injuries, and the number of deaths, from these incidents. I would also like to know the location of the shootings.*
- *I want these figures broken down by month throughout that time period.*

On 29 September 2018, you clarified that you were interested in "incidents in which someone other than the police has used a gun".

As you no doubt understand, using a gun and shooting a gun are not the same thing. Police record firearms-related offences (such as homicide with a firearm, robbery with a firearm) but this does not necessarily mean the firearm is discharged during each incident. In addition to these offences where a firearm was used, Police also record Arms Act 1983 offences, such as unlawful possession of a firearm or sale of a firearm without a licence – these offences are unlikely to involve a 'shooting' but they are incidents in which someone other than police has used a gun.

Police do not record number of injuries specifically, but rather number of offences that resulted in an injury. One occurrence (eg, one instance of homicide) may result in many offences (for example, if there were multiple victims, offenders, or multiple different offences within the same incident), and some offences within each occurrence could result in an injury while others do not. Therefore, the information is provided below indicating whether any injury resulted in any of the offences in the whole occurrence. An additional column is provided indicating whether the occurrence had offences of murder or manslaughter with a firearm.

Provided in the attached spreadsheet is the number of occurrences that took place between 1 Jan 2008 and 31 Dec 2017 and involved any firearms-related offences (both violence and Arms Act offences). The numbers are listed by scene district and occurrence year and month. The rate by 100,000 population is calculated from the

Police National Headquarters

180 Molesworth Street. PO Box 3017, Wellington 6140, New Zealand.
Telephone: 04 474 9499. Fax: 04 498 7400. www.police.govt.nz

monthly population estimate for each month for each District.

I trust the detail provided will satisfactorily address your queries.

Yours sincerely

Superintendent Chris Scahill
National Manager: Response and Operations
