## REPORT NOTES:

Statistics reported in this document are derived from the Police National Intelligence Application (NIA). These Official Statistics for Recorded and Resolved Offences present a snapshot of data in NIA relating to offences that occur within a given year, as at the date 14 days following the end of that year.

Unless the matter is minor where Police attendance is sufficient, a matter that is reported to or discovered by Police where Police believe an offence is likely to have been committed is counted as a recorded offence.

A recorded offence is counted as resolved when Police apprehend an offender and decide how to deal with him/her. (E.g. warn, prosecute, etc.)

Resolution rate is the percentage of recorded offences that are resolved within 14 days of the end of the year being reported on.

If an offence is resolved 15 days or more after the end of the year it will not appear in the Official Crime Statistics for that or any other year. Resolution Rate therefore undercounts the number of cases that Police have resolved. This phenomenon has a more marked impact for some types of offences than others, such as offences that require long investigations (E.g. many serial crimes, burglaries and murders).

In 2012, the government enacted the following three acts affecting alcohol misuse offences:

- Sale and Supply of Alcohol Act 2012
- Local Government (Alcohol Reform) Amendment Act 2012
- Summary Offences (Alcohol Reform) Amendment Act 2012

These acts will affect crime statistics, but not until 18 December 2013, which is when they come fully into force. The most significant impact of the legislation on crime statistics is that the current offence of Breach of Liquor Ban will become obsolete. This will have the effect of reducing the total number of offences in this collection by approximately 10,000 per annum.

Local bodies will still be able to impose alcohol control bylaws. However, breaches of these bylaws will be dealt with by issuing an infringement notice. For further details, refer to the Local Government (Alcohol Reform) Amendment Act 2012, which amends the Local Government Act 2002.

When comparing 2012/2013 Statistics with previous years, the reader should also refer to "Report Notes" published in previous years' reports, as previous changes significantly affect year on year trends.

## Population Data

Population data is used in this release to calculate crime rates. These data are estimated population figures as at 31 December each year. They have been derived from population estimates as at 30 June each year that have been obtained from Statistics New Zealand.

The estimated resident population is based on the census usually resident population count, with adjustments for residents missed or counted more than once by the census (net census undercount), and for residents temporarily overseas on census night.

These population estimates exclude the number of international students who are studying in New Zealand for less than 12 months.
