REPORT NOTES:

Statistics reported in this document are derived from the Police National Intelligence Application (N.I.A) These Official Crime Statistics present a snapshot of data in N.I.A. relating to offences within a given year, as at the date 14 days following the end of that year.

An incident that is reported to or discovered by Police where Police believe an offence is likely to have been committed is counted as a Recorded Offence.

A Recorded Offence is considered to be a Resolved Offence by Police when an offender is identified and dealt with. (E.g. warned, cautioned, prosecuted, etc.)

Resolution Rate is the percentage of Recorded Offences that are resolved.

If an offence is resolved 15 days or more after the end of the year it will not appear in the Official Crime Statistics for that or any other year. Resolution Rate therefore undercounts the number of cases that Police have resolved. This phenomenon has a more marked impact for some types of offences than others, such as offences that require long investigations (E.g. many serial crimes, burglaries and murders).

Note that Population Estimates have been revised for Fiscal Years 2002 to 2007 as a result of the 2006 Census. In previous reports population estimates were based on the 2001 Census. Crime rates reported in this report for those years may differ from those previously reported as a result.

Legislation changes during the 2007/2008 year have generally had negligible impact on recorded crime statistics.

When comparing 2007/2008 Statistics with previous years, the reader should also refer to "Report Notes" published in previous years' reports, as previous changes significantly affect year on year trends.

Population Data

Population data is used in this release to calculate crime rates. These data are estimated population figures as at 31 December each year. They have been derived from population estimates as at 30 June each year that have been obtained from Statistics New Zealand.

The estimated resident population is based on the census usually resident population count, with adjustments for residents missed or counted more than once by the census (net census undercount), and for residents temporarily overseas on census night.

These population estimates exclude the number of international students who are studying in New Zealand for less than 12 months.

Note that Fiscal Years 2002 to 2008 estimates are based on 2001 and 2006 Census data. Estimates have been revised since the previous publication of this report.
