Population data

Year	Estimated New Zealand resident population
1997/1998	3792400
1998/1999	3810700
1999/2000	3830800
2000/2001	3880500
2001/2002	3938700

NOTES:

Population data is used in this release to calculate crime rates. These data are estimated resident population figures that have been obtained from Statistics New Zealand. The estimated resident population is an estimate of all people who usually live in that area at a given date. It is based on the census usually resident population count with adjustments for residents missed or counted more than once by the census (net census undercount), and for residents temporarily overseas on census night. The estimate for a given area excludes visitors from elsewhere in New Zealand and overseas.

The estimated population data has been taken at 30 June each fiscal year.

The estimated population data obtained from Statistics New Zealand for 2001/2002 is provisional.

Provisional population data for 2000/2001 has been updated and therefore differs from the figure used in last years fiscal year crime statistics release.
