I am writing to you in response to your request dated 10 August 2021. You wrote:

*Over the past couple of years I've asked for gun crime data. I've attached the excel of what data I've requested in the past.*

*Under the OIA, could police provide the most up to date data, as per the excel file, and in an excel format. I'm just wanting the same type of information, monthly and by region, hopefully up until July this year.*

The previous response you received was our reference IR-01-20-3835.

Provided in the attached spreadsheet is the number of occurrences that took place between 1 April 2020 and 31 July 2021 and involved any firearms-related offences (both violence and Arms Act offences). The numbers are listed by scene district and occurrence year and month. The rate by 100,000 population is calculated from the monthly population estimate for each month for each District.

Police has a process for proactive release of information, so the anonymised response to your request may be publicly released on the New Zealand Police website.

Yours sincerely

**Inspector Jason Ross**  
Acting Director Capability, Frontline Capability

Month	Scene District	Occurrences with firearms-related offences	Occurrences with firearms-related offences per 100,000 estimated residents	Occurrences with firearms-related offences where an injury was recorded	Occurrences with firearms-related offences and murder or manslaughter with a firearm
