

AGREEMENT
BETWEEN NEW ZEALAND, OF THE ONE PART,
AND THE EUROPEAN UNION, OF THE OTHER PART,
ON THE EXCHANGE OF PERSONAL DATA BETWEEN THE EUROPEAN UNION AGENCY
FOR LAW ENFORCEMENT COOPERATION (EUROPOL)
AND THE AUTHORITIES OF NEW ZEALAND
COMPETENT FOR FIGHTING SERIOUS CRIME AND TERRORISM

NEW ZEALAND,

and

THE EUROPEAN UNION, hereinafter also referred to as the "Union" or "EU",

hereinafter jointly referred to as "the Contracting Parties",

CONSIDERING that by allowing the exchange of personal data between the European Union Agency for Law Enforcement Cooperation (Europol) and the competent authorities of New Zealand, this Agreement will create the framework for an enhanced operational cooperation between the Union and New Zealand in the field of law enforcement, while safeguarding the human rights and fundamental freedoms of all individuals concerned, including the right to privacy and data protection,

CONSIDERING that this Agreement is without prejudice to mutual legal assistance arrangements between New Zealand and the Member States of the Union allowing for the exchange of personal data,

CONSIDERING that this Agreement does not impose any requirement on the competent authorities to transfer personal data and that the sharing of any personal data requested under this Agreement remains voluntary,

RECOGNISING that the Contracting Parties apply comparable principles of proportionality and reasonableness; the common essence of those principles is the requirement of ensuring a fair balance between all the interests concerned, whether public or private, in the light of all the circumstances of the case at hand. Such balancing involves, on the one hand, the right to privacy of individuals together with other human rights and interests and, on the other hand, the countervailing legitimate objectives that may be pursued, such as the purposes of processing personal data reflected in this Agreement,

HAVE AGREED AS FOLLOWS:

For transfers to Europol, the purpose or purposes for such transfer shall be specified in line with the specific purpose or purposes of processing set out in Europol's mandate.

CHAPTER II

INFORMATION EXCHANGE AND DATA PROTECTION

ARTICLE 4

General data protection principles

1. Each Contracting Party shall provide for personal data exchanged under this Agreement to be:
 - (a) processed fairly, lawfully and only for the purpose or purposes for which they have been transferred in accordance with Article 3;

- (b) adequate, relevant and limited to what is necessary in relation to the purpose or purposes for which they are processed;
- (c) accurate and kept up to date; each Contracting Party shall provide that its competent authorities take every reasonable step to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are rectified or erased without undue delay;
- (d) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed;
- (e) processed in a manner that ensures appropriate security of the personal data.

2. The transferring competent authority, at the moment of transferring personal data, may indicate any restriction on access thereto or the use to be made thereof, in general or specific terms, including as regards its onward transfer, erasure or destruction after a certain period of time, or the further processing of it. Where the need for such restrictions becomes apparent after the information has been provided, the transferring competent authority shall inform the receiving authority accordingly.

3. Each Contracting Party shall ensure that the receiving competent authority complies with any restriction on access or further use of the personal data indicated by the transferring competent authority as described in paragraph 2.
4. Each Contracting Party shall provide that its competent authorities implement appropriate technical and organisational measures in such a way as to be able to demonstrate that the processing will comply with this Agreement and the rights of the data subjects concerned are protected.
5. Each Contracting Party shall ensure that its competent authorities do not transfer personal data which have been obtained in a manifest violation of human rights recognised by the norms of international law binding on the Contracting Parties. Each Contracting Party shall ensure that the personal data received are not used to request, hand down or execute a death penalty or any form of cruel or inhuman treatment.
6. Each Contracting Party shall ensure that a record is kept of all transfers of personal data under this Agreement and of the purpose or purposes for those transfers.

ARTICLE 5

Special categories of personal data and different categories of data subjects

1. The transfer of personal data in respect of victims of a criminal offence, witnesses or other persons who can provide information concerning criminal offences, or in respect of persons under the age of 18, shall be prohibited unless such transfer is strictly necessary as well as reasonable and proportionate in individual cases for preventing or fighting a criminal offence.
2. The transfer of personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data, biometric data for the purpose of uniquely identifying a natural person, or data concerning health, or data concerning a natural person's sex life or sexual orientation shall be allowed only where strictly necessary as well as reasonable and proportionate in individual cases for preventing or fighting a criminal offence, and if those data, except biometric data, supplement other personal data.
3. The Contracting Parties shall ensure that the processing of personal data under paragraphs 1 and 2 of this Article is subject to appropriate safeguards guarding against the specific risks involved, including restrictions on access, measures for data security within the meaning of Article 15 and limitations on onward transfers under Article 7.

ARTICLE 6

Automated processing of personal data

Decisions based solely on automated processing of the personal data exchanged, including profiling, without human intervention, which may produce an adverse legal effect on the data subject or significantly affect him or her, shall be prohibited, unless authorised at law for preventing or fighting a criminal offence and with appropriate safeguards for the rights and freedoms of the data subject, including at least the right to obtain human intervention.

ARTICLE 7

Onward transfer of the personal data received

1. New Zealand shall ensure that its competent authorities only transfer personal data received under this Agreement to other authorities in New Zealand if:

(a) Europol has given its prior explicit authorisation;

- (b) the purpose or purposes of the onward transfer is the same as the original purpose or purposes of the transfer by Europol, or, within the limits of Article 3(1), is directly related to that original purpose or purposes; and
- (c) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

Without prejudice to Article 4(2), no prior authorisation is required when the receiving authority is itself a competent authority of New Zealand. The same applies to the ability of Europol to share personal data with authorities responsible in the Member States of the Union for preventing and fighting criminal offences, and with Union bodies.

2. New Zealand shall ensure that onward transfers of personal data received by its competent authorities under this Agreement to the authorities of a third country or to an international organisation are prohibited, unless the following conditions are fulfilled:

- (a) the transfer concerns personal data other than that covered by Article 5;
- (b) Europol has given its prior explicit authorisation;
- (c) the purpose or purposes of the onward transfer is the same as the original purpose or purposes of the transfer by Europol; and

- (d) the onward transfer is subject to the same conditions and safeguards as those applying to the original transfer.

3. Europol may only grant its authorisation under paragraph 2, point b, of this Article for an onward transfer to the authority of a third country or to an international organisation if and insofar as an adequacy decision, an international agreement providing appropriate safeguards with respect to the protection of the right to privacy and fundamental rights and freedoms of individuals, a cooperation agreement or any other legal ground for transfers of personal data within the meaning of the Europol Regulation covering the onward transfer is in place.

4. The Union shall ensure that onward transfers of personal data received by Europol under this Agreement to Union bodies not listed in Annex III, authorities of third countries or an international organisation are prohibited, unless:

- (a) the transfer concerns personal data other than that covered by Article 5;
- (b) New Zealand has given its prior explicit authorisation;
- (c) the purpose or purposes of the onward transfer is the same as the original purpose of the transfer by New Zealand; and

- (d) an adequacy decision, an international agreement providing appropriate safeguards with respect to the protection of the right to privacy and fundamental rights and freedoms of individuals or a cooperation agreement within the meaning of the Europol Regulation is in place with that third country or international organisation or unless Europol is able to rely on any other legal ground for transfers of personal data within the meaning of the Europol Regulation.

ARTICLE 8

Assessment of reliability of the source of and accuracy of information

1. The competent authorities shall indicate as far as possible, at latest at the moment of transferring personal data, the reliability of the source of the information on the basis of one or more of the following criteria:
 - (a) where there is no doubt about the authenticity, trustworthiness and competence of the source, or if the information is supplied by a source who, in the past, has in all instances proved to be reliable;
 - (b) where the information is provided by a source from whom information received has in most instances proved to be reliable;

- (c) where the information is provided by a source from whom information received has in most instances proved to be unreliable;
- (d) where the reliability of the source cannot be assessed.

2. The competent authorities shall indicate as far as possible, at the latest at the moment of transferring personal data, the accuracy of the information on the basis of one or more of the following criteria:

- (a) information, the accuracy of which is not in doubt at the time of transfer;
- (b) information known personally to the source but not known personally to the official passing it on;
- (c) information not known personally to the source but corroborated by other information already recorded;
- (d) information which is not known personally to the source and cannot be corroborated.

3. Where the receiving competent authority, on the basis of information already in its possession, comes to the conclusion that the assessment of information supplied by the transferring competent authority or of its source carried out in accordance with paragraphs 1 and 2 needs correction, it shall inform that competent authority and shall attempt to agree on an amendment to the assessment. The receiving competent authority shall not change the assessment of information received or of its source without such an agreement.
4. If a competent authority receives information without an assessment, it shall attempt as far as possible and where possible in agreement with the transferring competent authority to assess the reliability of the source or the accuracy of the information on the basis of information already in its possession.
5. If no reliable assessment can be made, the information shall be evaluated in accordance with paragraph 1, point d, and paragraph 2, point (d), as applicable.

RIGHTS OF DATA SUBJECTS

ARTICLE 9

Right of access

1. The Contracting Parties shall ensure that the data subject has the right, at reasonable intervals, to obtain information on whether personal data relating to him or her are processed under this Agreement, and when that is the case, access to at least the following information:

- (a) confirmation as to whether or not data related to him or her have been processed;
- (b) information on at least the purpose or purposes of processing, the categories of data concerned, and where applicable the recipients or categories of recipients to whom the data are disclosed;

 - (f) communication in an intelligible form of the personal data undergoing processing and of any available information as to its sources.
2. In cases where the right of access is exercised, the transferring Contracting Party will be consulted on a non-binding basis before a final decision on the request for access is taken.
3. The Contracting Parties may provide for the provision of information in response to any request under paragraph 1 to be delayed, refused or restricted if and as long as such delay, refusal or restriction constitutes a measure that is necessary as well as reasonable and proportionate taking into account the fundamental rights and interests of the data subject, in order to:
- (a) ensure that any criminal investigation and prosecution will not be jeopardised;
 - (b) protect the rights and freedoms of third parties; or
 - (c) protect national security and public order or prevent crime.

4. The Contracting Parties shall ensure that the competent authority informs the data subject in writing of any delay, refusal or restriction of access and of the reasons for such delay, refusal or restriction of access. Those reasons may be omitted if and as long as this would undermine the purpose of the delay, refusal or restriction under paragraph 3. The competent authority shall inform the data subject of the possibility of lodging a complaint with the respective supervisory authorities and of other available means of redress provided for in their respective legal frameworks.

ARTICLE 10

Right to rectification/correction, erasure/deletion and restriction

1. The Contracting Parties shall ensure that the data subject has the right to request the competent authorities to rectify/correct inaccurate personal data that concern that data subject and have been transferred under this Agreement. Taking into account the purpose or purposes of the processing, this includes the right to have incomplete personal data transferred under this Agreement completed.
2. Rectification/correction shall include erasure/deletion of personal data that are no longer required for the purpose or purposes for which they are processed.

3. The Contracting Parties may provide for the restriction of processing rather than the erasure/deletion of personal data if there are reasonable grounds to believe that such erasure/deletion could affect the legitimate interests of the data subject.
4. The competent authorities shall inform each other of measures taken pursuant to paragraphs 1, 2 and 3. The receiving competent authority shall rectify/correct, erase or restrict the processing in accordance with the action taken by the transferring competent authority.
5. The Contracting Parties shall provide for the competent authority which has received the request to inform the data subject in writing without undue delay, and in any case within three months of receipt of a request in accordance with paragraph 1 or 2, that data concerning the data subject have been rectified/corrected, erased/deleted or the processing has been restricted.
6. The Contracting Parties shall provide for the competent authority which has received the request to inform the data subject in writing, without undue delay and in any case within three months of receipt of a request of any refusal of rectification/correction, erasure/deletion or restriction of processing, of the reasons for such a refusal and of the possibility of lodging a complaint with the respective supervisory authorities and other available means of redress provided for in their respective legal frameworks.

ARTICLE 11

Notification of a personal data breach to the authorities concerned

1. The Contracting Parties shall ensure, in the event of a personal data breach affecting personal data transferred under this Agreement, that the respective competent authorities notify each other as well as their respective supervisory authority of that personal data breach without delay, and to take measures to mitigate its possible adverse effects.
2. The notification shall at least:
 - (a) describe the nature of the personal data breach including, where possible, the categories and number of data subjects concerned and the categories and number of personal data records concerned;
 - (b) describe the likely consequences of the personal data breach;
 - (c) describe the measures taken or proposed to be taken by the competent authority to address the personal data breach, including the measures taken to mitigate its possible adverse effects.

3. To the extent that it is not possible to provide all the required information at the same time, it may be provided in phases. Outstanding information shall be provided without undue further delay.

4. The Contracting Parties shall ensure that their respective competent authorities document any personal data breaches affecting personal data transferred under this Agreement, including the facts surrounding the personal data breach, its effects and the remedial action taken, thereby enabling their respective supervisory authority to verify compliance with applicable legal requirements.

ARTICLE 12

Communication of a personal data breach to the data subject

1. The Contracting Parties shall, where a personal data breach as referred to in Article 11 is likely to have a serious adverse effect upon the rights and freedoms of the data subject, provide for their respective competent authorities to communicate the personal data breach to the data subject without undue delay.

2. The communication to the data subject pursuant to paragraph 1 shall describe, where possible, the nature of the personal data breach, recommend measures to mitigate the possible adverse effects of the personal data breach, and provide the name and contact details of the contact point where more information can be obtained.

3. The communication to the data subject pursuant to paragraph 1 shall not be required if:
- (a) the personal data concerned by the breach were subject to appropriate technological protection measures that render the data unintelligible to any person who is not authorised to have access to that data;
 - (b) subsequent measures have been taken which ensure that the rights and freedoms of the data subject are no longer likely to be severely affected; or
 - (c) communication to the data subject pursuant to paragraph 1 would involve disproportionate effort, in particular owing to the number of cases involved; in such a case, there shall instead be a public communication or similar measure whereby the data subject is informed in an equally effective manner.
4. The communication to the data subject pursuant to paragraph 1 may be delayed, restricted or omitted where such communication would be likely to:
- (a) obstruct official or legal inquiries, investigations or procedures;
 - (b) prejudice the prevention, detection, investigation and prosecution of criminal offences or the execution of criminal penalties, public order or national security;

- (c) affect the rights and freedoms of third parties;

where this constitutes a necessary as well as reasonable and proportionate measure with due regard for the legitimate interests of the data subject concerned.

ARTICLE 13

Storage, review, correction and deletion of personal data

1. The Contracting Parties shall provide for appropriate time limits to be established for the storage of personal data received under this Agreement or for a periodic review of the need for the storage of personal data, so that personal data are stored only as long as is necessary for the purpose or purposes for which they are transferred.
2. In any case, the need for continued storage of personal data shall be reviewed no later than three years after the personal data has been transferred, and if no justified and documented decision is taken on the continued storage of personal data, personal data shall be erased automatically after three years.

3. Where a competent authority has reason to believe that personal data previously transferred by it are incorrect, inaccurate, no longer up to date or should not have been transferred, it shall inform the receiving competent authority, which shall correct or delete that data, and provide notification thereof to the transferring competent authority.

4. Where a competent authority has reason to believe that personal data previously received are incorrect, inaccurate, no longer up to date or should not have been transferred, it shall inform the transferring competent authority, which shall provide its position on the matter. Where the transferring competent authority concludes that the personal data are incorrect, inaccurate, no longer up to date or should not have been transferred, it shall inform the receiving competent authority, which shall correct or delete that data, and provide notification thereof to the transferring competent authority.

ARTICLE 14

Logging and documentation

1. The Contracting Parties shall provide for the keeping of logs or documentation of the collection, alteration, access, disclosure including onward transfers, combination and erasure of personal data.

2. Logs or documentation referred to in paragraph 1 shall be made available to the respective supervisory authority upon request for the purpose of verification of the lawfulness of processing, self-monitoring and ensuring proper data integrity and security.

ARTICLE 16

Supervisory authority

1. Each Contracting Party shall ensure that there is an independent public authority responsible for data protection (supervisory authority) to oversee matters affecting the right to privacy of individuals, including the domestic rules relevant under this Agreement, in order to protect the fundamental rights and freedoms of natural persons in relation to the processing of personal data. The Contracting Parties shall notify each other of the authority that each of them considers as the supervisory authority.
